# Cautionary Statement

Certain statements in this presentation are “forward looking statements,” which reflect the expectations of management regarding the Company's future growth, results of operations, performance and business prospects and opportunities.

These forward-looking statements are made as of the date of this presentation and NFI assumes no obligation to update or revise them to reflect new events or circumstances, except as required by applicable securities laws. See the Appendix to this presentation for more details about the forward-looking statements.

In addition, certain financial measures used in this presentation, including but not limited to, Backlog, Liquidity, Adjusted EBITDA, Adjusted Net Earnings (Loss) and Free Cash Flow are not recognized earnings measures and do not have standardized meanings prescribed by International Financial Reporting Standards (“IFRS”). Therefore, they may not be comparable to similar measures presented by other issuers. See the Appendix to this presentation and the Company’s related Management Discussion & Analysis (“MD&A”), available on SEDAR ([www.sedar.com](http://www.sedar.com)) for more information and detailed reconciliation to the applicable IFRS measures.

# Key Terms

- ✓ Buses manufactured by New Flyer and Alexander Dennis' single and double deck buses are classified as "**transit buses**". ARBOC manufactures body on-chassis or "**cutaway**" and "**medium-duty**" buses that service transit, paratransit, and shuttle applications. Collectively, transit buses, medium-duty buses and cutaways, are referred to as "**buses**".
- ✓ A "**motor coach**" or "**coach**" is a 35-foot to 45-foot over-the-highway bus typically used for intercity transportation and travel over longer distances than heavy-duty transit buses and is typically characterized by (i) high deck floor, (ii) baggage compartment under the floor, (iii) high-backed seats with a coach-style interior (often including a lavatory), and (iv) no room for standing passengers.
- ✓ **Zero-emission buses ("ZEBs")** consist of trolley-electric, hydrogen fuel cell-electric, and battery-electric buses and coaches.
- ✓ One **equivalent unit** (or "**EU**") represents one production "slot", being one 30-foot, 35-foot, 40-foot, 45-foot heavy-duty transit bus, one double deck bus, one medium-duty bus, one cutaway bus or one motor coach, whereas one articulated transit bus represents two equivalent units. An articulated transit bus is an extra-long transit bus (approximately 60-feet in length), composed of two passenger compartments connected by a joint mechanism. The joint mechanism allows the vehicle to bend when the bus turns a corner yet have a continuous interior.
- ✓ Many public customer contracts include options to purchase transit buses and motor coaches in the future, and a large portion of the Company's order book is represented by "**options**" as opposed to "**firm orders**."

# Significant Supply Chain Improvements in 2023

## NFI Group Consolidated High and Moderate Risk Suppliers (2020 Q4 – July 2023)

### 9 High Risk Suppliers in NFI top 750

### 2023 Update

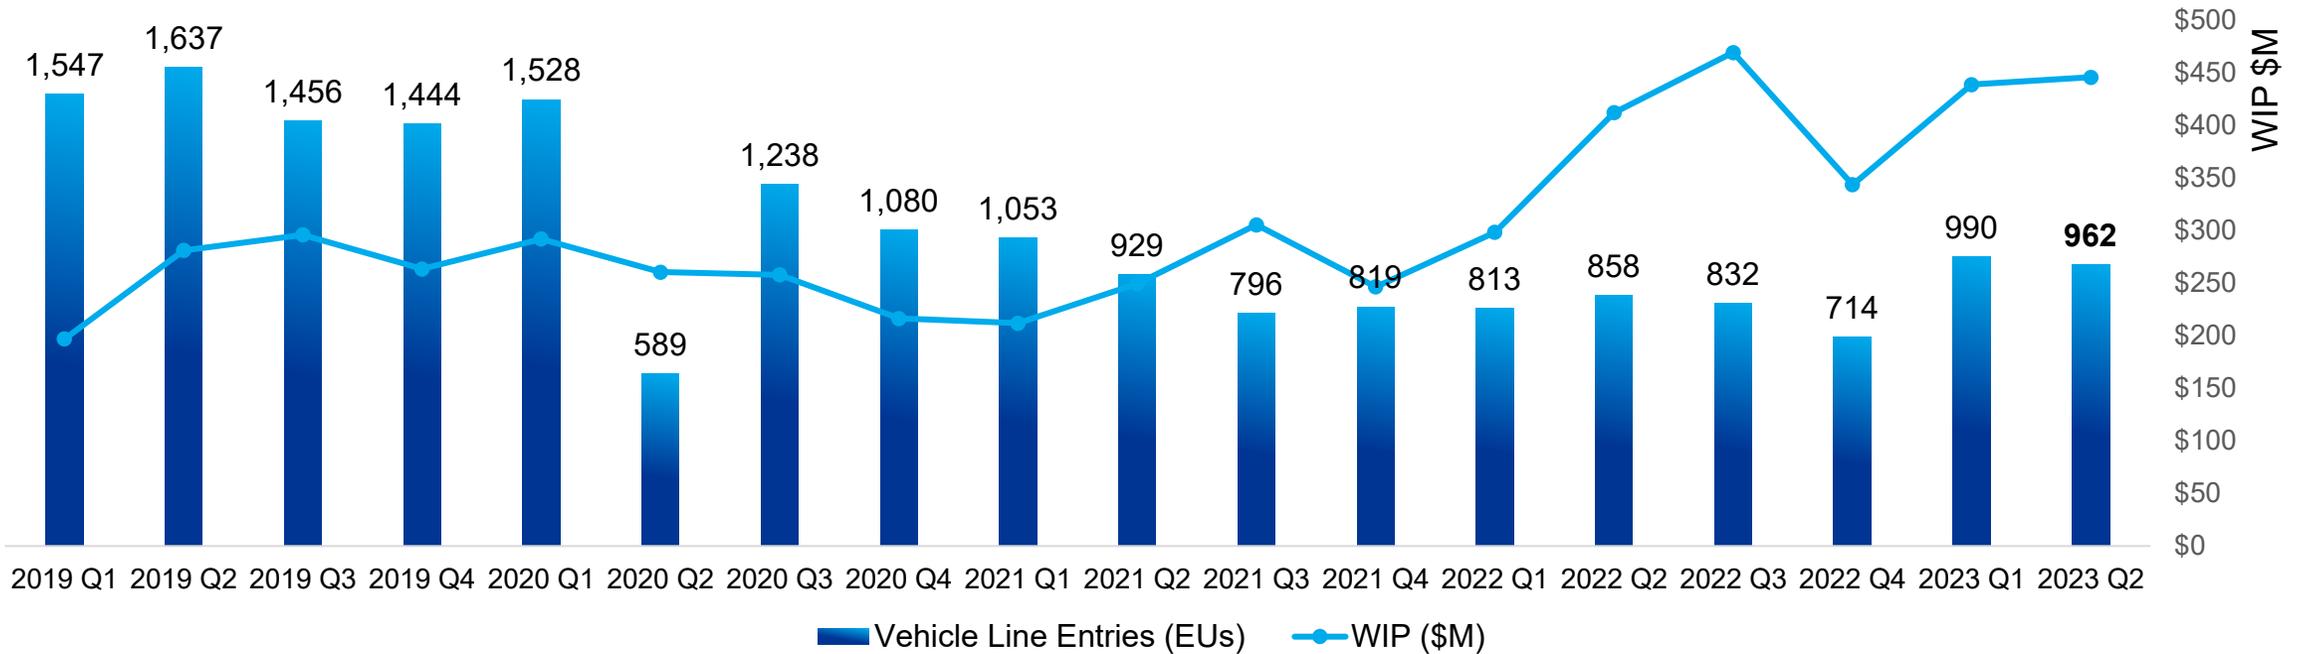

- Supplier delivery performance continues to improve
- Moderate risk supplier continue to improve on-time delivery; continuing to manage delays through increased levels of excess inventory
- Suppliers only removed from moderate risk once on-time delivery to purchase order dates is sustained
- Current 9 high risk suppliers continue to provide line shortages and impact build-in-station but are not significant enough to impact build schedules or require any decreases to line-entry rates

### FY 2023 Outlook

- Supply performance continue trending positively, sufficient to support production ramp-up
- Production line disruption risk decreased significantly
- Supply teams continue to address supplier capacity concerns to support 2023 ramp up

# Supply Chain Challenges have Impacted Production & WIP

**Total NFI Quarterly Vehicle Line Entries and WIP Inventory (2019 Q1 – 2023 Q2)**

Idled facilities in response to initial COVID-19 wave

First major supply disruption experienced in Q3 2021

Improvements in 2022 Q2 offset by further erosion in supply consistency in 2022 Q4

# Backlog and Deliveries as of 2023 Q2

## Backlog – Firm and Option

# Book-to-Bill Recovery Continues Above 100%

## Book-to-Bill and Option Conversion (2014 – 2023 Q2)

- ✓ Bid volume driving order increase
- ✓ Book-to-Bill expected to remain above 100% in 2023
- ↻ Lower option conversion in 2022 and 2023 Q2 LTM as fleets allow older options to expire in transition to **ZE**
- ↻ Overall conversion rate should improve in H2 2023 through 2025 with more ZEB orders

**Book-to-Bill recovery to 100%+ driven by increased bid and award activity. Anticipated to remain above 100% in 2023. Option conversion expected to recover with new multi-year orders.**

# Transition to *ZE* Accelerating

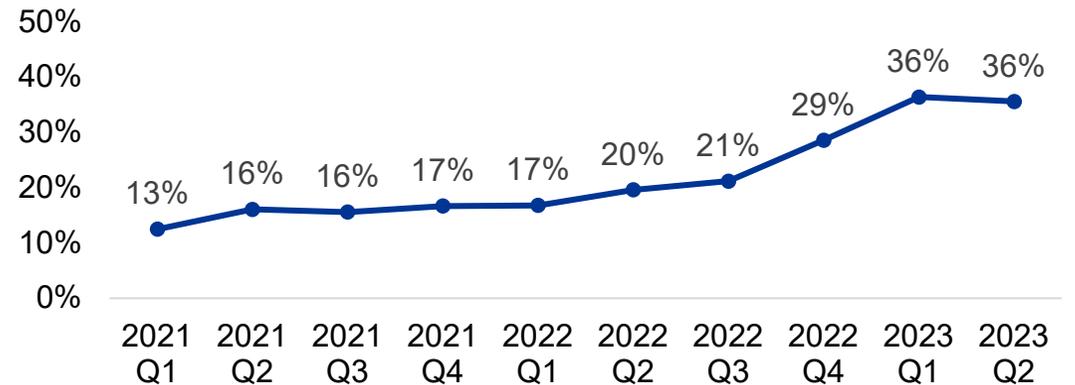

Increasing demand for electric vehicles (battery- and fuel cell-electric) in NFI's core markets, driven by government funding and the drive to zero-emission

**ZEBs as % Annual Deliveries**

2023 Q2:  
25% of total deliveries  
were ZEB EUs

**ZEB as % of Backlog**

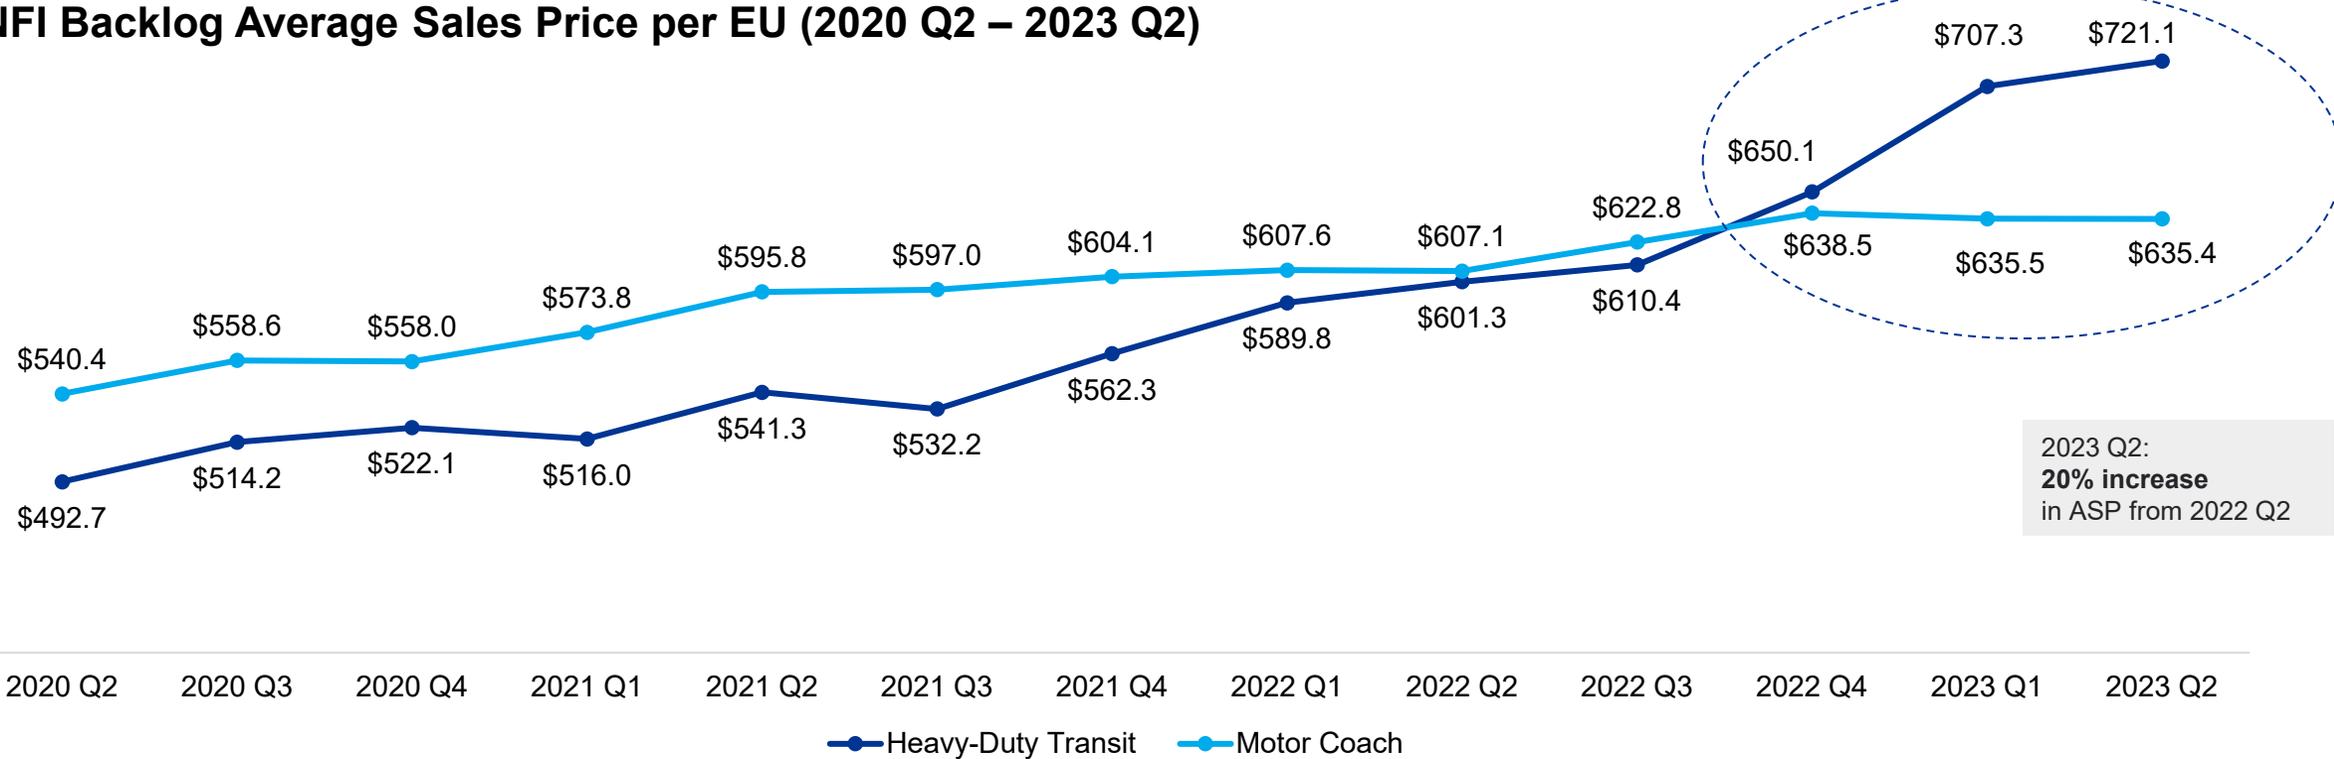

***ZE* transition accelerating; transition is growing NFI's ZEB backlog with higher dollar revenue and margin vehicles.**

# Average Backlog Price Continues to Increase

Increasing transit and coach sale prices driven by increased number of ZEBs in backlog; will drive higher \$\$/EU contribution

NFI Backlog Average Sales Price per EU (2020 Q2 – 2023 Q2)

**ZEBs, on average, command a price premium to ICE vehicles and a dollar margin uplift. ZEB backlog growth positions NFI on its path to achieve 2025 targets.**

# Summary: Why Invest in NFI

With 450 years of combined bus and coach experience across its portfolio companies, NFI has a proven track record of innovation, customized vehicle manufacturing expertise, a diversified product offering and strong aftermarket support and service.

As market leader in share, technology and reputation, NFI is well positioned to deliver compelling financial returns as it continues to Lead the **ZEvolution™** and provide a full suite of solutions to its customers.

# Forward-Looking Statements

Certain statements in this presentation are “forward-looking statements”, which reflect the expectations of management regarding the Company’s future growth, financial performance, and liquidity and objectives and the Company’s strategic initiatives, plans, business prospects and opportunities, including the duration, impact of and recovery from the COVID-19 pandemic, supply chain disruptions and plans to address them, and the Company’s expectation of obtaining long-term credit arrangements and sufficient liquidity. A number of factors and risks may cause actual results to differ materially from the results discussed in the forward-looking statements (including the temporary nature of the supply chain disruptions and operational challenges, production improvement, the recovery of the Company’s markets, the expected benefits to be obtained through its “NFI Forward” initiative, and the Company’s March 1, 2023 financial guidance (the “Guidance”)) which was updated on August 15, 2023. For more detail regarding the assumptions, factors and risks relating to these “forward looking statements”, please refer to the Company’s press release dated March 1, 2023 and financial materials dated February 28, 2023, May 3, 2023, and August 15, 2023, and the factors and risks contained in its Annual Information Form and other materials filed with the Canadian securities regulatory authorities which are available on SEDAR at [www.sedarplus.ca](http://www.sedarplus.ca). These forward-looking statements are made as of the date of this presentation and the Company assumes no obligation to update or revise them to reflect new events or circumstances, except as required by applicable securities laws. *All figures in U.S. dollars unless otherwise noted.*

## Notes to Readers

The Company retrospectively adopted IFRS 17 - Insurance Contracts on January 2, 2023. Refer to the section, "new and amended standards adopted by the Company" for details of the impact of the adoption on this MD&A. NFI's Financial Statements were prepared on a going concern basis in accordance with IFRS. Readers are recommended to read the section, "capital allocation policy" regarding the basis of preparation, the impact of upcoming financial covenants and the determination of application of the going concern assumption.

Specific references and definitions are used throughout this MD&A, please see the Non-IFRS and Other Financial Measures section. References to LTM mean last-twelve months ("LTM"). Adjusted earnings before interest, taxes, depreciation and amortization ("Adjusted EBITDA"), Invested Capital, net operating profit after taxes ("NOPAT"), return on invested capital ("ROIC"), Free Cash Flow, Free Cash Flow per Share, Adjusted Net Loss, Adjusted Net Loss per Share, Liquidity, Working Capital Days, Payout Ratio, Book-to-Bill and Backlog are non-IFRS measures and should not be considered substitutes or alternatives for IFRS measures. These are not defined terms under IFRS and do not have standard meanings, so may not be a reliable way to compare NFI to other companies.

# Key Financial Definitions

**Non-IFRS Measures – see *NON-IFRS AND OTHER FINANCIAL MEASURES* section of the MD&A Dated May 3, 2023**

- ✓ **Adjusted EBITDA:** Earnings before interest, income taxes, depreciation and amortization after adjusting for the effects of certain non-recurring and/or non-operations related items that do not reflect the current ongoing cash operations of the Company. These adjustments include gains or losses on disposal of property, plant and equipment, fair value adjustment for total return swap, unrealized foreign exchange losses or gains on non-current monetary items and forward foreign exchange contracts, costs associated with assessing strategic and corporate initiatives, past service costs and other pension costs or recovery, non-recurring costs or recoveries relating to business acquisition, fair value adjustment to acquired subsidiary company's inventory and deferred revenue, proportion of the total return swap realized, proportion of the total return swap realized, equity settled stock-based compensation, unrecoverable insurance costs, prior year sales tax provision, extraordinary COVID-19 costs, impairment loss on goodwill and non-recurring restructuring costs.
- ✓ **Free Cash Flow:** Defined as net cash generated by or used in operating activities adjusted for changes in non-cash working capital items, interest paid, interest expense, income taxes paid, current income tax expense, repayment of obligation under lease, cash capital expenditures, acquisition of intangible assets, proceeds from disposition of property, plant and equipment, costs associated with assessing strategic and corporate initiatives, fair value adjustment to acquired subsidiary company's inventory and deferred revenue, defined benefit funding, defined benefit expense, past service costs and other pension costs or recovery, proportion of total return swap, unrecoverable insurance costs, prior year sales tax provision, non-recurring restructuring costs, extraordinary COVID-19 costs, foreign exchange gain or loss on cash held in foreign currency.
- ✓ **Return on Invested Capital (“ROIC”):** Defined as net operating profit after taxes (calculated as Adjusted EBITDA less depreciation of plant and equipment, depreciation of right-of-use assets and income taxes at a rate of 31%) divided by average invested capital for the last 12-month period (calculated as to shareholders' equity plus long-term debt, obligations under leases, other long-term liabilities and derivative financial instrument liabilities less cash).
- ✓ **Adjusted Net Earnings (Loss):** Defined as net earnings (loss) after adjusting for the after tax effects of certain non-recurring and/or non-operational related items that do not reflect the current ongoing cash operations of the Company including: fair value adjustments of total return swap, unrealized foreign exchange loss or gain, unrealized gain or loss on the interest rate swap, impairment loss on goodwill, portion of the total return swap realized, costs associated with assessing strategic and corporate initiatives, fair value adjustment to acquired subsidiary company's inventory and deferred revenue, equity settled stock-based compensation, gain or loss on disposal of property, plant and equipment, past service costs and other pension costs or recovery, unrecoverable insurance costs, recovery on currency transactions, prior year sales tax provision, other tax adjustments, extraordinary COVID-19 costs and non-recurring restructuring costs.
- ✓ **Adjusted Earnings (Loss) per Share:** Defined as Adjusted Net Earnings (Loss) divided by the average number of Shares outstanding
