

NFI subsidiary New Flyer receives order for up to 150 Xcelsior CHARGE® battery-electric buses from NFTA-Metro

October 20, 2021

ST. CLOUD, Minn., Oct. 20, 2021 (GLOBE NEWSWIRE) -- **(TSX: NFI, OTC: NFIYEF)** NFI Group Inc. ("NFI"), a leading independent bus and coach manufacturer and a leader in electric mass mobility solutions, today announced that the Niagara Frontier Transportation Authority of Buffalo, New York ("NFTA-Metro") has issued a five-year contract to NFI subsidiary New Flyer of America Inc. ("New Flyer"), which includes a firm order for 10 Xcelsior CHARGE® heavy-duty transit buses and options to purchase up to 140 additional buses.

NFTA-Metro provides bus and rail transportation services in Erie and Niagara Counties in New York State, delivering over 24 million rides annually. Phase 1, 2020-2021 of NFTA-Metro's Electric Bus Implementation plan aims to introduce battery-electric buses to its existing fleet of 323 buses, powered with diesel, hybrid, and compressed natural gas.

"We are excited to provide these 10 NFI buses to NFTA-Metro as the transit agency takes its first step towards electrifying its fleet," said Paul Soubry, President and Chief Executive Officer, NFI. "NFI is leading the evolution to zero-emission mobility by providing the widest range of zero-emission battery and fuel cell-electric buses and coaches, alongside innovative technology and infrastructure, and is helping transit agencies like NFTA-Metro make the switch to zero-emission."

"With more electric buses on the road in America than any other manufacturer, NFI keeps driving zero-emission adoption with scalable mobility solutions," said Chris Stoddart, President, North American Bus and Coach. "These Xcelsior CHARGE buses, each eliminating up to 85-175 tons of greenhouse gas emissions per year, support NFTA-Metro's goal to provide environment-friendly transportation and help to build a more livable community in the greater New York region."

NFI is a leader in zero-emission mobility, with electric vehicles operating (or on order) in more than 80 cities in five countries. NFI offers the widest range of zero-emission battery and fuel cell-electric buses and coaches, and the Company's vehicles have completed over 40 million EV service miles. Today, NFI supports growing North American cities with scalable, clean, and sustainable mobility solutions through a four-pillar approach that includes buses and coaches, technology, [infrastructure](#), and workforce development. NFI also operates the [Vehicle Innovation Center](#) ("VIC"), the first and only innovation lab of its kind dedicated to advancing bus and coach technology and providing workforce development. Since opening late 2017, the VIC has hosted over 300 interactive events, welcoming 4,000 industry professionals for EV and infrastructure training.

About NFI

Leveraging 450 years of combined experience, NFI is leading the electrification of mass mobility around the world. With zero-emission buses and coaches, infrastructure, and technology, NFI meets today's urban demands for scalable smart mobility solutions. Together, NFI is enabling more livable cities through connected, clean, and sustainable transportation.

With 8,000 team members in nine countries, NFI is a leading global bus manufacturer of mass mobility solutions under the brands New Flyer® (heavy-duty transit buses), MCI® (motor coaches), Alexander Dennis Limited (single and double-deck buses), Plaxton (motor coaches), ARBOC® (low-floor cutaway and medium-duty buses), and NFI Parts™. NFI currently offers the widest range of sustainable drive systems available, including zero-emission electric (trolley, battery, and fuel cell), natural gas, electric hybrid, and clean diesel. In total, NFI supports its installed base of over 105,000 buses and coaches around the world. NFI common shares are traded on the Toronto Stock Exchange under the symbol NFI. About New Flyer

New Flyer is North America's heavy-duty transit bus leader and offers the most advanced product line under the Xcelsior® and Xcelsior CHARGE® brands. It also offers infrastructure development through New Flyer Infrastructure Solutions™, a service dedicated to providing safe, sustainable, and reliable charging and mobility solutions. New Flyer actively supports over 35,000 heavy-duty transit buses (New Flyer, NABI, and Orion) currently in service, of which 8,600 are powered by electric motors and battery propulsion and 1,900 are zero-emission. Further information is available at www.newflyer.com.

Forward-Looking Statement

This press release may contain forward-looking statements relating to expected future events and financial and operating results of NFI Group that involve risks and uncertainties. Although the forward-looking statements contained in this press release are based upon what management believes to be reasonable assumptions, investors cannot be assured that actual results will be consistent with these forward-looking statements, and the differences may be material. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including market and general economic conditions and economic conditions of and funding availability for customers to purchase buses and to purchase parts or services, customers may not exercise options to purchase additional buses, the ability of customers to suspend or terminate contracts for convenience and the other risks and uncertainties discussed in the materials filed with the Canadian securities regulatory authorities and available on SEDAR at www.sedar.com. Due to the potential impact of these factors, the NFI Group disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
