

ADL BEGINS PREPARATION OF ITS NEW STATE-OF-THE-ART TRIDENT HOUSE OFFICE AND EVENT SPACE IN FARNBOROUGH

August 24, 2021

Alexander Dennis Limited (“ADL”), a subsidiary of NFI Group Inc. (“NFI”), one of the world’s leading independent global bus manufacturers, today announced that it has begun the preparation of Trident House, its new facility in Farnborough that will be the new home for ADL team members in the South of England when it fully opens in early 2022.

This site will provide a state-of-the-art working environment for team members from Test & Development, Engineering, Aftermarket, Operations, Procurement, Commercial, Finance and IT. In addition to the modern office space, there will be workshop facilities enabling engineering, testing and development to be carried out.

Located in the Farnborough Aerospace Centre campus, Trident House will also offer a flexible events space for vehicle handovers and presentations and will include a museum honouring the heritage of the Dennis brand and all it encompasses – the people, knowledge, passion and expertise of all involved.

Paul Davies, ADL President & Managing Director, commented: “Trident House will be both a great working environment for our team members, as well as a fitting reminder of all that has been achieved by the Dennis brand. The Dennis brand remains a foundational pillar of ADL, and is synonymous with innovation and engineering expertise, whilst emphasising the critical role Dennis will continue to play in our business growth moving forward.”
