

NFI Group Inc. Announces Closing of Bought Deal Financing for Gross Proceeds of Approximately C\$450 Million

December 2, 2021

Not for distribution to U.S. newswires or for dissemination in the United States

WINNIPEG, Manitoba, Dec. 02, 2021 (GLOBE NEWSWIRE) -- (TSX:NFI, NFI.DB) **NFI Group Inc.** ("NFI" or the "Company"), one of the world's leading independent bus and coach manufacturers, today announced that it has closed its previously announced bought deal financing (the "Offering"). Pursuant to the Offering a total of 6,110,000 common shares of NFI (the "Shares") were issued at a price of C\$24.55 per share and C\$300 million aggregate principal amount of convertible unsecured debentures (the "Debentures") were issued, for total aggregate gross proceeds to the Company of approximately C\$450 million.

The Offering was led by a syndicate of underwriters including BMO Capital Markets, CIBC World Markets, National Bank Financial and Scotiabank. The Debentures have a coupon of 5% per annum, and a conversion price of C\$33.15 per Share, subject to adjustments in certain circumstances. The Debentures will mature on January 15, 2027 (the "Maturity Date").

The Company intends to use the net proceeds of the Offering to reduce the outstanding balance under its senior credit facilities. Reduced borrowings under its senior credit facilities, together with certain amendments to those facilities that came into effect today and which provide flexibility with respect to key financial covenants (total leverage ratio and interest coverage ratio) for fiscal 2022 and 2023, will provide NFI with greater flexibility to navigate the ongoing global supply chain disruptions, while permitting the Company to continue to pursue its operational and strategic goals, such as investments in NFI's zero-emission products and electric propulsion technology and other potential growth or business enhancement opportunities.

The Shares and Debentures were offered pursuant to a short form prospectus dated November 29, 2021, filed in each of the provinces and territories of Canada. A copy of the prospectus is available under the Company's profile on SEDAR at www.sedar.com.

In connection with the Offering, the Company has also granted the underwriters over-allotment options to purchase up to an additional 916,500 Shares at a price of C\$24.55 per Share and an additional C\$45 million aggregate principal amount of Debentures, in each case to cover over-allotments and for market stabilization purposes. Both over-allotment options are exercisable in whole or in part at any time up to the 30th day following the closing of the Offering.

This news release does not constitute an offer of securities for sale in the United States. The securities were not offered and have not been, nor will they be, registered under the United States Securities Act of 1933, as amended, and such securities may not be offered or sold within the United States absent registration or an applicable exemption from U.S. registration requirements.

About NFI Group

Leveraging 450 years of combined experience, NFI is leading the electrification of mass mobility around the world. With zero-emission buses and coaches, infrastructure, and technology, NFI meets today's urban demands for scalable smart mobility solutions. Together, NFI is enabling more livable cities through connected, clean, and sustainable transportation.

With 8,000 team members in nine countries, NFI is a leading global bus manufacturer of mass mobility solutions under the brands **New Flyer®** (heavy-duty transit buses), **MCI®** (motor coaches), **Alexander Dennis Limited** (single and double-deck buses), **Plaxton** (motor coaches), **ARBOC®** (low-floor cutaway and medium-duty buses), and **NFI Parts™**. NFI currently offers the widest range of sustainable drive systems available, including zero-emission electric (trolley, battery, and fuel cell), natural gas, electric hybrid, and clean diesel. In total, NFI supports its installed base of over 105,000 buses and coaches around the world.

NFI Shares are traded on the Toronto Stock Exchange under the symbol NFI and the Debentures will trade on the Toronto Stock Exchange under the symbol NFI.DB. Forward-Looking Statements

This press release contains "forward-looking information" and "forward-looking statements", within the meaning of applicable Canadian securities laws, which reflect the expectations of management regarding the intended use of proceeds of the Offering the Company's future growth, financial performance and objectives and the Company's strategic initiatives, plans, business prospects and opportunities, including the duration, impact of and recovery from the COVID-19 pandemic and supply chain disruptions. The words "believes", "views", "anticipates", "plans", "expects", "intends", "projects", "forecasts", "estimates", "guidance", "goals", "objectives" and "targets" and similar expressions of future events or conditional verbs such as "may", "will", "should", "could", "would" are intended to identify forward looking statements. These forward-looking statements reflect management's current expectations regarding future events (including the temporary nature of the supply chain disruptions, the recovery of the Company's markets and the expected benefits to be obtained through its "NFI Forward" initiative) and the Company's financial and operating performance and speak only as of the date of this press release. By their very nature, forward-looking statements require management to make assumptions and involve significant

risks and uncertainties, should not be read as guarantees of future events, performance or results, and give rise to the possibility that management's predictions, forecasts, projections, expectations or conclusions will not prove to be accurate, that the assumptions may not be correct and that the Company's future growth, financial performance and objectives and the Company's strategic initiatives, plans, business prospects and opportunities, including the duration, impact of and recovery from the COVID-19 pandemic and supply chain disruptions, will not occur or be achieved.

A number of factors that may cause actual results to differ materially from the results discussed in the forward-looking statements include: the Company's business, operating results, financial condition and liquidity may be materially adversely impacted by the ongoing COVID-19 pandemic and supply chain disruptions; funding may not continue to be available to the Company's customers at current levels or at all; the Company's business is affected by economic factors and adverse developments in economic conditions which could have an adverse effect on the demand for the Company's products and the results of its operations; currency fluctuations could adversely affect the Company's financial results or competitive position; interest rates could change substantially, materially impacting the Company's revenue and profitability; an active, liquid trading market for the Shares may cease to exist, which may limit the ability of shareholders to trade Shares; the market price for the Shares may be volatile; if securities or industry analysts do not publish research or reports about the Company and its business, if they adversely change their recommendations regarding the Shares or if the Company's results of operations do not meet their expectations, the Share price and trading volume could decline; in addition, if securities or industry analysts publish inaccurate or unfavorable research about the Company or its business, the Share price and trading volume of the Shares could decline; competition in the industry and entrance of new competitors; current requirements under "Buy America" regulations may change and/or become more onerous or suppliers' "Buy America" content may change; failure of the Company to comply with the U.S. Disadvantaged Business Enterprise ("DBE") program requirements or the failure to have its DBE goals approved by the U.S. Federal Transit Administration; absence of fixed term customer contracts, exercise of options and customer suspension or termination for convenience; local content bidding preferences in the United States may create a competitive disadvantage; uncertainty resulting from the exit of the UK from the European Union; requirements under Canadian content policies may change and/or become more onerous; operational risk resulting from inadequate or failed internal processes, people and/or systems or from external events, including fiduciary breaches, regulatory compliance failures, legal disputes, business disruption, pandemics, floods, technology failures, processing errors, business integration, damage to physical assets, employee safety and insurance coverage; international operations subject the Company to additional risks and costs and may cause profitability to decline; compliance with international trade regulations, tariffs and duties; dependence on limited sources or unique sources of supply; a disruption of the supply of components containing microprocessors and other computer chips could materially adversely affect the production and sale of the Company's vehicles and certain other products; dependence on supply of engines that comply with emission regulations; a disruption, termination or alteration of the supply of vehicle chassis or other critical components from third-party suppliers could materially adversely affect the sales of certain of the Company's products; the Company's profitability can be adversely affected by increases in raw material and component costs; the Company may incur material losses and costs as a result of product warranty costs, recalls and remediation of transit buses and motor coaches; production delays may result in liquidated damages under the Company's contracts with its customers; catastrophic events may lead to production curtailments or shutdowns; the Company may not be able to successfully renegotiate collective bargaining agreements when they expire and may be adversely affected by labour disruptions and shortages of labour; the Company's operations are subject to risks and hazards that may result in monetary losses and liabilities not covered by insurance or which exceed its insurance coverage; the Company may be adversely affected by rising insurance costs; the Company may not be able to maintain performance bonds or letters of credit required by its contracts or obtain performance bonds and letters of credit required for new contracts; the Company is subject to litigation in the ordinary course of business and may incur material losses and costs as a result of product liability claims; the Company may have difficulty selling pre-owned coaches and realizing expected resale values; the Company may incur costs in connection with regulations relating to axle weight restrictions and vehicle lengths; the Company may be subject to claims and liabilities under environmental, health and safety laws; dependence on management information systems and cyber security risks; the Company's ability to execute its strategy and conduct operations is dependent upon its ability to attract, train and retain qualified personnel, including its ability to retain and attract executives, senior management and key employees; the Company may be exposed to liabilities under applicable anti-corruption laws and any determination that it violated these laws could have a material adverse effect on its business; the Company's risk management policies and procedures may not be fully effective in achieving their intended purposes; internal controls over financial reporting, no matter how well designed, have inherent limitations; there are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures; ability to successfully execute strategic plans and maintain profitability; development of competitive or disruptive products, services or technology; development and testing of new products or model variants; acquisition risk; reliance on third-party manufacturers; third-party distribution/dealer agreements; availability to the Company of future financing; the Company may not be able to generate the necessary amount of cash to service its existing debt, which may require the Company to refinance its debt; the restrictive covenants in the Company's credit facilities could impact the Company's business and affect its ability to pursue its business strategies; payment of dividends is not guaranteed; a significant amount of the Company's cash is distributed, which may restrict potential growth; NFI is dependent on its subsidiaries for all cash available for distributions; future sales or the possibility of future sales of a substantial number of Shares may impact the price of the Shares and could result in dilution; if the Company is required to write down goodwill or other intangible assets, its financial condition and operating results would be negatively affected; income tax risk resulting from the Company's operations being complex and income tax interpretations, regulations and legislation that pertain to its activities are subject to continual change; investment eligibility and Canadian federal income tax risks; certain U.S. tax rules may limit the ability of New Flyer Holdings, Inc. and its U.S. subsidiaries (the "NF Group") to deduct interest expense for U.S. federal income tax purposes and may increase the NF Group's tax liability.

Factors relating to the global COVID-19 pandemic include: the magnitude and duration of the global, national and regional economic and social disruption being caused as a result of the pandemic; the impact of national, regional and local governmental laws, regulations and "shelter in place" or similar orders relating to the pandemic which may materially adversely impact the Company's ability to continue operations; partial or complete closures of one, more or all of the Company's facilities and work locations or the reduction of production rates (including due to government mandates and to protect the health and safety of the Company's employees or as a result of employees being unable to come to work due to COVID-19 infections with respect to them or their family members or having to isolate or quarantine as a result of coming into contact with infected individuals); production rates may be further decreased as a result of the pandemic; ongoing and future supply delays and shortages of parts and components, and shipping and freight delays, and disruption to labour supply as a result of the pandemic; the pandemic will likely adversely affect operations of suppliers and customers, and reduce and delay, for an unknown period, customers' purchases of the Company's products; the anticipated recovery of the Company's markets in the future may be delayed or increase in demand may be lower than expected as a result of the continuing effects of the pandemic; the Company's ability to obtain access to additional capital if required; and the Company's financial performance and condition, obligations, cash flow and liquidity and its ability to maintain compliance with the covenants under its credit facilities, which may also negatively impact the ability of the Company to pay dividends. There can be no assurance that the Company will be able to maintain sufficient liquidity for an extended period, obtain future satisfactory covenant relief under its credit facilities, or access to additional capital or access to government financial support or as to when production operations will return to previous production rates. There is also no assurance that governments will provide continued or adequate

stimulus funding during or after the pandemic for public transit agencies to purchase transit vehicles or that public or private demand for the Company's vehicles will return to pre-pandemic levels in the anticipated period of time. The Company cautions that due to the dynamic, fluid and highly unpredictable nature of the pandemic and its impact on global and local economies, supply chains, businesses and individuals, it is impossible to predict the severity of the impact on the Company's business, operating performance, financial condition and ability to generate sufficient cash flow and maintain adequate liquidity and any material adverse effects could very well be rapid, unexpected and may continue for an extended and unknown period of time.

Factors relating to the Company's "NFI Forward" initiative include: the Company's ability to successfully execute the initiative and to generate the planned savings in the expected time frame or at all; management may have overestimated the amount of savings and production efficiencies that can be generated or may have underestimated the amount of costs to be expended; the implementation of the initiative may take longer than planned to achieve the expected savings; further restructuring and cost-cutting may be required in order to achieve the objectives of the initiative; the estimated amount of savings generated under the initiative may not be sufficient to achieve the planned benefits; combining business units and/or reducing the number of production or parts facilities may not achieve the efficiencies anticipated; and the impact of the continuing global COVID-19 pandemic. There can be no assurance that the Company will be able to achieve the anticipated financial and operational benefits, cost savings or other benefits of the initiative.

Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that could cause actions, events or results not to be as anticipated, estimated or intended or to occur or be achieved at all. Specific reference is made to "Risk Factors" in the Annual Information Form for a discussion of the factors that may affect forward-looking statements and information. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking statements and information. The forward-looking statements and information contained herein are made as of the date of this press release (or as otherwise indicated) and, except as required by law, the Company does not undertake to update any forward-looking statement or information, whether written or oral, that may be made from time to time by the Company or on its behalf. The Company provides no assurance that forward-looking statements and information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers and investors should not place undue reliance on forward-looking statements and information.
